ACADEMIC INTEGRITY

Virginia College promotes an atmosphere conducive to intellectual fulfillment by maintaining the highest possible standards of academic integrity. For that reason, the College will not tolerate or endorse any form of academic dishonesty. Academic dishonesty is any form of giving, taking, or prescribing of information or material with interest to gain an unfair advantage in an academic setting. Forms of dishonesty include, but are not limited to, cheating, plagiarism, and aiding others to cheat or plagiarize.

CHEATING is defined as
- copying another student’s answers while completing any class assignments or during in-class and take-home examinations;
- using notes, books, or unauthorized aids during an examination;
- discussing answers during an in-class examination;
- submitting another student’s work as one’s own; and
- stealing another student’s work.

PLAGARISM is defined as
- submitting a paper or answer in which the language, ideas, or thoughts are identical to published or unpublished material from another source without correctly giving credit to that source.

Any student engaging in academic dishonesty will be subject to discipline by the school, which may include:
- Receiving a grade of zero (0) on that assignment
- Receiving a failing grade for the course
- Termination from one or more courses the student is taking
- Suspension and/or expulsion from Virginia College

If the student appeals the action taken, he/she must follow the Student Complaint/Grievance Procedure in the catalog.

ACADEMIC RESOURCES

Career Services: While the institution does not guarantee employment following graduation, reasonable effort will be made to assist the student in securing suitable employment. Virginia College’s Career Services Directors stand ready to address the following steps in preparation for the job search:
- Reviewing a graduate’s resume
- Assisting in interviewing techniques
- Providing assistance in career job-market research
- Marketing the graduate’s skills
- Generating job leads
The success or failure of the employment efforts of the institution will be influenced to a great extent by the attendance and academic records of the student.

**Learning Success Centers:** Learning Success Centers are staffed with knowledgeable instructors who can assist students with academic needs. The centers are equipped with computers for students to write papers, to research, and work on class projects. Individual tutoring is scheduled upon request. The Learning Success Center staff members are dedicated to helping students be successful. Check the bulletin boards for posted operating hours. Self-paced tutorials are available to students in a variety of subject areas.

**Library:** Virginia College libraries are available to all students. The library maintains an up-to-date collection of books, periodicals, and audio-visual materials to support all of the subject areas covered by the campuses’ curricula. The staff is available and eager to serve the students’ library needs and strives to maintain a friendly and quiet environment for research and study. Virginia College libraries provide access to the Internet and other online electronic services and databases.

**Virtual Library:** The Virginia College Virtual Library is designed to provide a full-range of instructional resources to serve the needs of the Institution’s educational programs by providing general reference resources and resources that complement classroom instruction. The Virtual Library can be accessed from campus computers as well as off-campus computers. Visit your library for instructions on how to access the Virtual Library remotely.

**Alcohol and Drug-Free Campus**

The Drug-Free Schools and Communities Act of 1989 (Public Law 101-226) requires institutions receiving federal financial assistance to implement and enforce drug prevention programs and policies. As a matter of policy, Virginia College prohibits the manufacture and unlawful possession, use, or distribution of illicit drugs and alcohol by students, employees, and any other parties on its property or at any school activity. Any violation of this policy will result in appropriate disciplinary actions up to and including expulsion (in the case of students) and termination (in the case of employees), even for a first offense. Where it is apparent that a violation of the law has occurred, the appropriate law enforcement authorities will be notified. Drug and Alcohol Prevention information can be located at www.vc.edu under the Student Services/Student Catalog menus.

In certain cases, students or employees may be referred to counseling sources and/or substance abuse help centers to take part at their own expense, in an appropriate counseling or treatment program. If such a referral is made, continued enrollment or employment will be subject to successful completion of any prescribed counseling or treatment program.
**APPROPRIATE ATTIRE**

Virginia College is a career-oriented college and, therefore, strives to create a business-like atmosphere. All students should use this time in college to develop a wardrobe that is appropriate for their careers. Clothing with obscene or vulgar wording or graphics or clothing that is too revealing is not allowed. This includes tank tops, tube tops, halter tops, short shorts, low-rise pants without appropriate cover, and clothing worn with no undergarments. No hats/ball caps, hair wraps, or head scarves will be allowed unless the garment is a requirement of the student’s religious belief and/or practice or their program.

Students in programs which provide uniform attire must wear uniforms to all classes and school activities. Uniforms must be kept neat and clean. Any student who refuses to comply with the dress code may be asked to leave the College. Because representatives of companies who can provide employment opportunities for Virginia College graduates are frequently on campus, either announced or unannounced, it is important that they see their potential employees in an acceptable mode of dress.

**ATTENDANCE/MAKE-UP POLICY**

left unattended in the student lounge, library, or other areas of the institution.

**COMPUTER POLICY**

Classroom computers and network facilities are provided as training resources for the courses offered by the college. We take pride in providing our students access to this technology and we will continue providing our students with every advantage to prepare them for a new tomorrow. In order to maintain the highest possible level of availability and functionality of this equipment, the following policy has been established. It is the responsibility of every student to read, understand and return a signed copy of this document to their Admissions Associate during the admissions process. Students using computers in the Learning Success Center and/or Library will also sign a form during their initial visit. Each instructor is responsible for reminding the student of this policy and that the signed policy is part of that student’s academic record. The instructor is responsible for ensuring that the computer use is limited to academic purposes.

1. No software or files of any type are to be installed, executed, copied (to, on or from) the classroom computers or the network at Virginia College except when expressly instructed to do so by the course instructor or a member of the Information Technology (IT) staff. You may, however, print files from the Internet and/or use the File-Save As command to save files to a floppy disk, CD, or flash memory device.

2. Internet access is provided for the sole purpose of course-related research. It is not intended for e-mail and other personal correspondence. No file of questionable taste (pornography, explicit sexual language, or any material that may offend others) is to be viewed or downloaded to the school computers or network. In addition, the College routinely blocks access to all social networking sites and known Web sites that offer access to music files, movie files, and other copyrighted materials. College computers may not be used to download or share unauthorized copies of copyrighted materials. Failure to comply with these policies will subject a student to disciplinary actions up to and including dismissal. Violation of copyright laws also may subject a person to civil and criminal liabilities, including significant fines, attorney’s fees, and imprisonment.
3. The student is to save homework on a floppy disk or flash drive rather than the classroom computer’s hard drive or the network drive unless the instructor directs otherwise.

4. Any floppy disk, CD, or flash drive memory device that has been used in off-campus computers MUST be virus scanned BEFORE being used in College computers again. If a shortcut to Virus Scan is not on your computer desktop, please see instructions posted in the classroom.

5. No maintenance utilities that may reside on the classroom computer or the network are to be executed by the student unless expressly instructed to do so by the course instructor or IT staff. This includes, but is not limited to, running Disk Defragmenter or other utilities that come with the operating system software.

6. No modifications to the CMOS setup, hardware setup, or software setup and configuration of any kind shall be made by the student on classroom computers or the network unless expressly instructed to do so by the course instructor or the IT staff. This includes, but is not limited to, the following functions:

   a. Changing screen savers
   b. Changing screen colors
   c. Changing the arrangement of icons
   d. Changing the wallpaper
   e. Moving or deleting files and/or programs
   f. Changing the .ini files, the registration files or other system files
   g. Moving mice, keyboard, monitors, and other accessories from one computer to another

7. No flyers, posters, banners, menus, or other documents not directly related to the course being attended or to College activities and programs shall be printed utilizing classroom computers, the network, or the reproduction or facsimile equipment at the College unless expressly instructed to do so by the course instructor or a member of the College Administration.

8. Students may not use College software, classroom computers, the network, or campus access to the Internet for profit.

9. Students should report any problems or maintenance issues to their instructor immediately so that the proper actions can be taken. Students are asked to give their e-mail address to their instructors for classroom communications.
FERPA – STUDENT RECORDS/RELEASE OF INFORMATION

In compliance with Public Law 93-083, “The Family Educational Rights and Privacy Act” (FERPA), Section 438 of the General Education Provision Act, the College has adopted policies and procedures which permit the student the opportunity to view his/her educational records upon request. Educational records mean those records, files, documents, and other materials that contain information directly related to a student. Educational records do not include working papers concerning students, such as informal notes and other temporary notes of a similar nature that are in the sole possession of the faculty or staff and are not accessible or revealed to any other person.

The College will not permit access to or release of confidential information to any individual or agency without written consent of the student, except for the following reasons:

In cases of bad weather, campus management may decide to move students to a more secure location or, in severe cases, cancel classes. Every attempt will be made to let students know of any changes in the College’s schedule of classes. When weather conditions require early close, late opening, or closing, announcements will be made on local television and radio stations.

**INFORMATION SYSTEMS**

As with all College assets, the computer systems, hardware, and software are intended only for authorized business and academic use. Telephone system, fax equipment, and copier use is also governed by this policy. Each student is responsible for the appropriate use and preservation of the computer systems provided by Virginia College. Understanding that much of the information held on Virginia College computers is proprietary, sensitive, and required for maintenance of accreditation and continuing operations, it is essential that proper procedures be followed regarding computing assets. Inappropriate use or the misuse of computer hardware and/or software may result in loss of access privileges and other disciplinary action up to and including expulsion.

- Unauthorized attempts to access another person’s e-mail
- Transmission of sensitive or proprietary information to unauthorized persons or organizations either within or outside of the College

• Hacking/intentionally breaking through (ingress and/or egress) the Virginia College firewall

**PROFESSIONALISM**

Students are expected to act in a professional manner by meeting deadlines, solving problems, cooperating with classmates, and generally contributing in a positive way to the class. Working in your field of study often means searching for solutions in a group context. Teamwork, listening, empathy, enthusiasm, emotional maturity, respect, and consideration of other people’s concerns are all essential to success. Please bring these qualities and values with you to class. It is as important to “practice” these interpersonal skills as it is to learn new intellectual content and related skills. Students will be evaluated on their professional demeanor in class.

**RELATIONSHIPS BETWEEN EMPLOYEES AND STUDENTS**

Virginia College is committed to maintaining an environment in which its faculty members, students, administrators, and staff members are safe and can be trusted and can count on others to be trustworthy. Indeed, mutual respect among faculty members, students, and administrators is an essential ingredient in the educational process, and the greatest care must be taken that it not in any way be eroded.

As part of the commitment to maintaining an environment that supports our educational goals, Virginia College prohibits romantic, sexual, and exploitative relationships between College employees and students. In the event that any such relationship is reported and confirmed, the College employee is subject to employee disciplinary procedures up to and including dismissal. All employees and students are accountable for compliance with this policy. Even when the initiator of the relationships is not the employee, any ensuing penalties will affect the staff member whose institutional responsibility is to deal in a professional manner and avoid such situations.

There are exceptional circumstances such as, when the spouse or partner of a College employee is a student at the College. Another exception would occur when the staff member has an existing relationship with the student prior to the student’s enrollment at Virginia College. This fraternization policy does not apply in such circumstances. The Dean of the College, in consultation with the Director of Human Resources, the relevant Program Director, and the
Campus President determines whether an exceptional circumstance applies. The appearance of conflict of interest or inappropriate relationship is to be avoided by full disclosure in advance.
